

Package: dum dum (via r-universe)

June 5, 2026

Title Auto installer for kinference prereqs

Version 1.0.5

Author Mark Bravington <markb2@summerinsouth.net>

Depends R (>= 4.3.0)

Imports gbasics (>= 1.2), Rcpp (>= 0.12.11), RcppArmadillo, atease, mvbutils (>= 2.12), vecless

Suggests knitr, rmarkdown, tinytest

Description Install this to get the other packages required by kinference from R-universe, in case kinference itself is not on R-universe yet. Contains one cynical function.

do_research	2
Index	3

`do_research`*Streamlined research for our glorious modern world*

Description

Does it matter?

Usage

```
do_research(subject, funding)
```

Arguments

<code>subject</code>	Text string, whatever you like.
<code>funding</code>	The most important part!

Details

It is tempting, but not terribly productive TBF, to add a lot more to this function...

Value

Conclusions, summarized to one key dot-point for Generation Busy.

Examples

```
do_research( "mouse farts", funding=1e6)
try( do_research( 'anything'))
```
